

COMMUNITY SURVEY PROVIDES VALUABLE INPUT FOR GENERAL PLAN UPDATE

Thanks to the interest and enthusiasm of San Bruno residents, the Community Survey for San Bruno's General Plan update, distributed in the previous edition of *Focus*, was a major success. More than 500 households responded to the survey, representing about 3.7 percent of City households. This high response gives the Community Development Department a clear indication of community viewpoints on key issues regarding the City's physical growth and development, as well as many new ideas.

The results of the survey are summarized in the table below. This data, in addition to the numerous written comments received, will play a key role in creating a General Plan that reflects community needs and desires.

The Community Development Department has selected a San Francisco consulting firm, Dyett & Bhatia, to prepare the updated General Plan. The Department will continue to keep the public informed about the General Plan project as it moves forward. If you have questions, or you would like to be on the mailing list for further information about the project, please contact the Community Development Department at (650) 616-7074.
